DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims s 1-6 and 37-48 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nimmagadda (US 20020093985) in view of Kardach et al. (US 7,080,271).

Regarding claims 1-6 and 37, Nimmagadda discloses a method, comprising: executing a service selection method on an off load processor of a computing system to select an available network service for handling traffic sent to/from a handheld device, said executing being performed while a main CPU of said computing system is in a low power state, discovering that said available network service is available within said computing system's present environment prior to said handling. Nimmagadda also discloses selecting further comprises selecting said available service because it has a lowest cost metric amongst a plurality of available network services, and selecting said network service according to a pre-determined policy. See paragraphs 84-86 and 102-104.

Nimmagadda fails to disclose that the handheld device is in communication with a laptop. However, Kardach discloses a handheld device in communication with a laptop in a low power state (col. 6, line 61 - col. 7, line 12). Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the method in Nimmagadda by

Art Unit: 2617

incorporating this feature taught in Kardach for the purpose of providing the convenience of viewing user data using the laptop.

Claims 38-48 are incorporated by the limitations of claims 2-6, and are therefore rejected for the same reasons as these claims.

Response to Arguments

3. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
